# Pareo® Provider

Drive engagement & decrease costs

As contracting and claim adjudication grow more complex, transparent communication to enable a cleaner claims process grows ever-more important. Pareo® Provider is a payer-provider portal that helps health plans demonstrate value on fundamental communication needs around claims payment accuracy.

Learn More

Build trust with providers by transparently sharing payment information.

Payment Accuracy Communication Tool
A HIPAA-compliant, HITRUST certified portal to communicate with providers, access and manage supporting documentation.

Payment Processing
A streamlined way to manage payments with providers, allowing for easier and documented reconcilliation.

Insights Dashboard
Payers & providers see personalized dashboards housing relevant information, including payment forecasting.

Experience the difference transparent technology can bring to your provider relationships.

If you have found success with Pareo, now is the time to transform paper-heavy, manual communications into true engagement with your providers. Pareo Provider includes electronic alerting, real-time access to claims status, provider self-reporting and denial management. These features can lower costs, improve recoveries and reduce abrasion to create value for both payers and providers.

Available with any Pareo product as part of a Total Payment Integrity solutions stack.

Accurate
Share real-time information with providers for a clean claims process

Communicate
Easily approve overpayments and handle disputes upstream, leading to faster recoveries and lower re-work costs

Digitize
Reduce print, mail & labor costs and increase coordination with providers

Organize
Process records requests, organize and store documentation

Report
Access-based reporting for payers and providers shows payment reconcilliation forecasting, and other essential A&R metrics
