

Pareo® Supplier Optimization

[Learn More](#)

Grow recoveries and avoidance with a 30% increase in supplier efficiency and expanded footprint through our proven management platform. Pareo Supplier Optimization allows you to easily expand or streamline your PI service vendor stack with minimal IT lift.

Increase outsourced recovery & avoidance efforts

Increase Supplier Efficiency
Automate claims distribution and ensure vendors work only relevant claims based on their specific health plan arrangement.

Decrease Administrative Costs
Increased data feed standardization promotes efficiency, while automated invoicing workflows reduce manual tasks.

Optimize Concept Performance
Intuitive workflows allow internal resources to easily track, review and approve concepts.

40% Avg. Time Savings | 15x Avg. ROI | 35% Increase in Vendor Productivity

Transparent technology increases supplier efficiency 30-40%.

Item	Unit	Rate	Amount
Engagement	Month	\$6,000.00	\$6,000.00
Bank Fee		\$5.00	\$5.00
Payment Integrity (PI)		\$5.00	\$5.00
Customer Support		\$5.00	\$5.00
System Maintenance		\$5.00	\$5.00
Hardware (Printer)		\$5.00	\$5.00
Taxes		\$5.00	\$5.00
Total			\$6,020.00

Partnering with PI service vendors allows health plans to quickly expand claims recovery efforts. Pareo Supplier Optimization mitigates short-term and long-term risks to an outsource strategy.

API connections (some pre-built with suppliers) and easier access to required data minimize IT costs and speed supplier onboarding so you can realize value more quickly.

Long-term, increased visibility into a supplier's performance and across total outsourced efforts allows payers to capitalize on opportunities for innovation.

Automate
Automated invoicing tracks inventory and rates in real-time to eliminate cumbersome reconciliation tasks.

Optimize
Easily adjust pass order of PI suppliers based on performance. Build by data set, product or business line, paid date restrictions and more.

Streamline
Transparent access to data means your team can streamline business operations to avoid abrasive, costly gaps and deploy overlap controls.

Report
Access real-time information on PI supplier performance to make informed business decisions when they matter most. No need to wait for QBRs.
