

# PI Checklist

Easily evaluate your PI platform needs and see how Pareo compares.

## Functionality: Does the solution in question offer the following functionality?

Function	Solution Under Evaluation	Pareo®
Supplier Optimization		<ul style="list-style-type: none"> <li>• Only solution on the market that optimizes vendor performance for a 30% increase in supplier efficiency</li> <li>• Integrate overlap control, contract management, performance reporting through a single platform</li> <li>• Easily onboard new vendors, automate invoicing</li> </ul>
Audit Workflow & Analytics		<ul style="list-style-type: none"> <li>• Grow internal data mining, COB operations with 3x increase in auditor productivity</li> <li>• Access advanced analytics, expert data science resources</li> <li>• Maximize analytics across all lines of business to gain insights into hit rates, improve accuracy</li> </ul>
Clinical Workflow & Analytics		<ul style="list-style-type: none"> <li>• Maximize effectiveness of certified coders and nurse auditors for a 2-4% decrease in medical spend</li> <li>• Validate and internalize complex analytics, reconcile each audit</li> <li>• Eliminate duplicate content requests to reduce provider abrasion</li> <li>• Unlock unstructured clinical data with A.I. to surface aberrancies without page-by-page review</li> </ul>
Prepay Workflow & Analytics		<ul style="list-style-type: none"> <li>• Minimize pay-and-chase for a 10% improvement in cost avoidance</li> <li>• Integrate data sources, vendors, post-pay for comprehensive audit management</li> <li>• Transition post-pay analytics, other detection sources to prepay</li> <li>• Real-time visibility on throughput, hit rates to adhere to stringent SLA</li> </ul>
Fraud Detection & Case Management		<ul style="list-style-type: none"> <li>• Super Scores™ on 40+ weighted metrics push leads without querying</li> <li>• Reduce false positives, identify causal relationships with deep learning A.I.</li> <li>• Include real claims history in aberrancy scoring</li> <li>• Integrate with PI for improved intelligence</li> </ul>
Reporting & Business Intelligence		<ul style="list-style-type: none"> <li>• Maximize effectiveness with actionable business intelligence</li> <li>• Access real-time metrics for accurate reporting</li> <li>• Role-based dashboards scale business intelligence across departments and to suppliers</li> </ul>
Provider Engagement		<ul style="list-style-type: none"> <li>• Improve payer-provider relationship</li> <li>• Reduce costs, increase recoveries</li> <li>• Features: electronic overpayment notifications, engagement tools, underpayment management, provider self-reporting, payment processing</li> <li>• Provider access to payment forecasting, financial tools</li> </ul>

### Additional Areas to Evaluate:

**Flexibility:** In-house solutions offer total customization but also involve ongoing maintenance and improvements to stay current. Determine how flexible you want your solution to be in terms of customization and data, and evaluate as needed.

**Solution Under Evaluation**

**Pareo®**

- Access customization, integrative technologies, platform-wide flexibility
- Configure workflows, data access, integrations
- Prioritize functionality that offers best value. Scale as you grow

**Value Perks:** Does the solution in question add any value by closing gaps?

**Solution Under Evaluation**

**Pareo®**

- Improved rate of recovery compared to solutions that are not comprehensive
- 10x ROI

**Integration + Ease of System Implementation:** Evaluation of integration specs, implementation process, and technology.

**Solution Under Evaluation**

**Pareo®**

- Includes continual support, maintenance, assistance with implementation, training
- Implement concurrently with third-party suppliers, other solutions
- Integrate data sources via API
- Cloud-based solution offered as SaaS

### Special Considerations for Self-Built or Non-Comprehensive Solutions

To be considered in addition to the above areas.

**Self-developed Solution:**

**Pareo®**

- Functionality (utilize pg. 1)
- Cost
- Time
- Integration with data sources, suppliers, other solutions

- Highly configurable
- Implement quickly to speed ROI
- Ongoing updates ensure access to latest technology, codes, data

**Claims Editing Solution**

**Pareo®**

Not comprehensive. What gaps are left and how will this affect your ROI?

- Integrates with and expands on claims editing solutions

**FWA Solutions**

**Pareo®**

Not comprehensive. What gaps are left and how will this affect your ROI?

- Integrates with and expands on FWA solutions
- Integrates with overall payment integrity

**Third-Party Suppliers**

**Pareo®**

Will they integrate with other solutions?

- Integrates with and helps optimize third-party vendors
